MED SPA

ALAN N LARSEN, MD

Spa Services Guide

DR. ALAN N. L ARSEN

Lux Med Spa is owned and operated by double board certified plastic surgeon, Dr. Alan N. Larsen, at Buckhead Plastic Surgery.

Dr. Larsen is sought after for his expertise in cosmetic surgery and nonsurgical rejuvenation. At Lux Med Spa, we are dedicated to creating a relaxing atmosphere where the senses are awakened, the body is nurtured, and the spirit is soothed. We pride ourselves on our ability to indulge the skin while delivering unsurpassed results with advanced technology. Our multi-licensed staff is highly-trained, experienced, and devoted to our patient's personalized care. We combine medical-grade skin care with non-surgical procedures to defy the aging process and create a more confident, beautiful you.

FACIAL TREATMENTS

LUX SIGNATURE FACIAL

Our experienced medical aestheticians will evaluate the condition of your skin and tailor a treatment plan for your skin concerns. Enjoy a pampering lux signature facial that combines a thorough cleansing, toning, gentle exfoliation of dead tissue, steam, extractions, a face & neck massage and a treatment mask that will transform your skin and reveal a radiant complexion.

GENTLEMAN'S FACIAL

Designed for a man's specific needs. We use products specifically designed to remove dead skin cells and thoroughly deep clean the pores. This facial leaves the skin renewed and balanced.

CLEAR & FRESH FACIAL

Leave skin clean, clear and fresh! This purifying facial involves a deep cleaning of clogged pores, exfoliation, extractions, mask and application of products customized for your skin type.

CHEMICAL PEELS

THE PERFECT PEEL

Working from the inside to repair and nourish the skin by giving it a radiant glow, refining pores, improving hyperpigmentation, lifting melasma, diminishing fine lines and wrinkles, eliminating acne and preventing acne scars.

The perfect peel uses powerful ingredients for skin rejuvenation including: tca, kojic acid, retinoic acid, salicylic acid, phenol, vitamin c and for the first time in a chemical peel, antioxidant glutathione for superior skin lightening. The perfect peel delivers real results for all skin types and ethnicities.

MICROPEEL

Micropeel is a treatment that will give your skin the ultimate glow. It combines a full-face dermaplane with a light chemical peel which increases cell turnover.

PCA CUSTOMIZED PEEL

Your PCA skin peel will reduce the depth of surface lines, smooth rough skin texture, treat skin discoloration and redness, and assist in clearing acneblemished skin. Your esthetician will apply a varying blend of peel solutions tailored to your skin concern to loosen dead cells from the skin's surface, revealing new, healthy cells. The result of monthly treatments can even skin tone, clear acne, improve the appearance of aging skin and make dull complexions glow. The result is radiant skin!

FACIAL TREATMENTS

LASER RESURFACING & REMODELING

BBL™ BROADBAND LIGHT

Turn back the clock with BBL photo rejuvenation. Broadband light is an innovative treatment that sends light energy deep into the skin to boost our body's natural ability to fight aging.

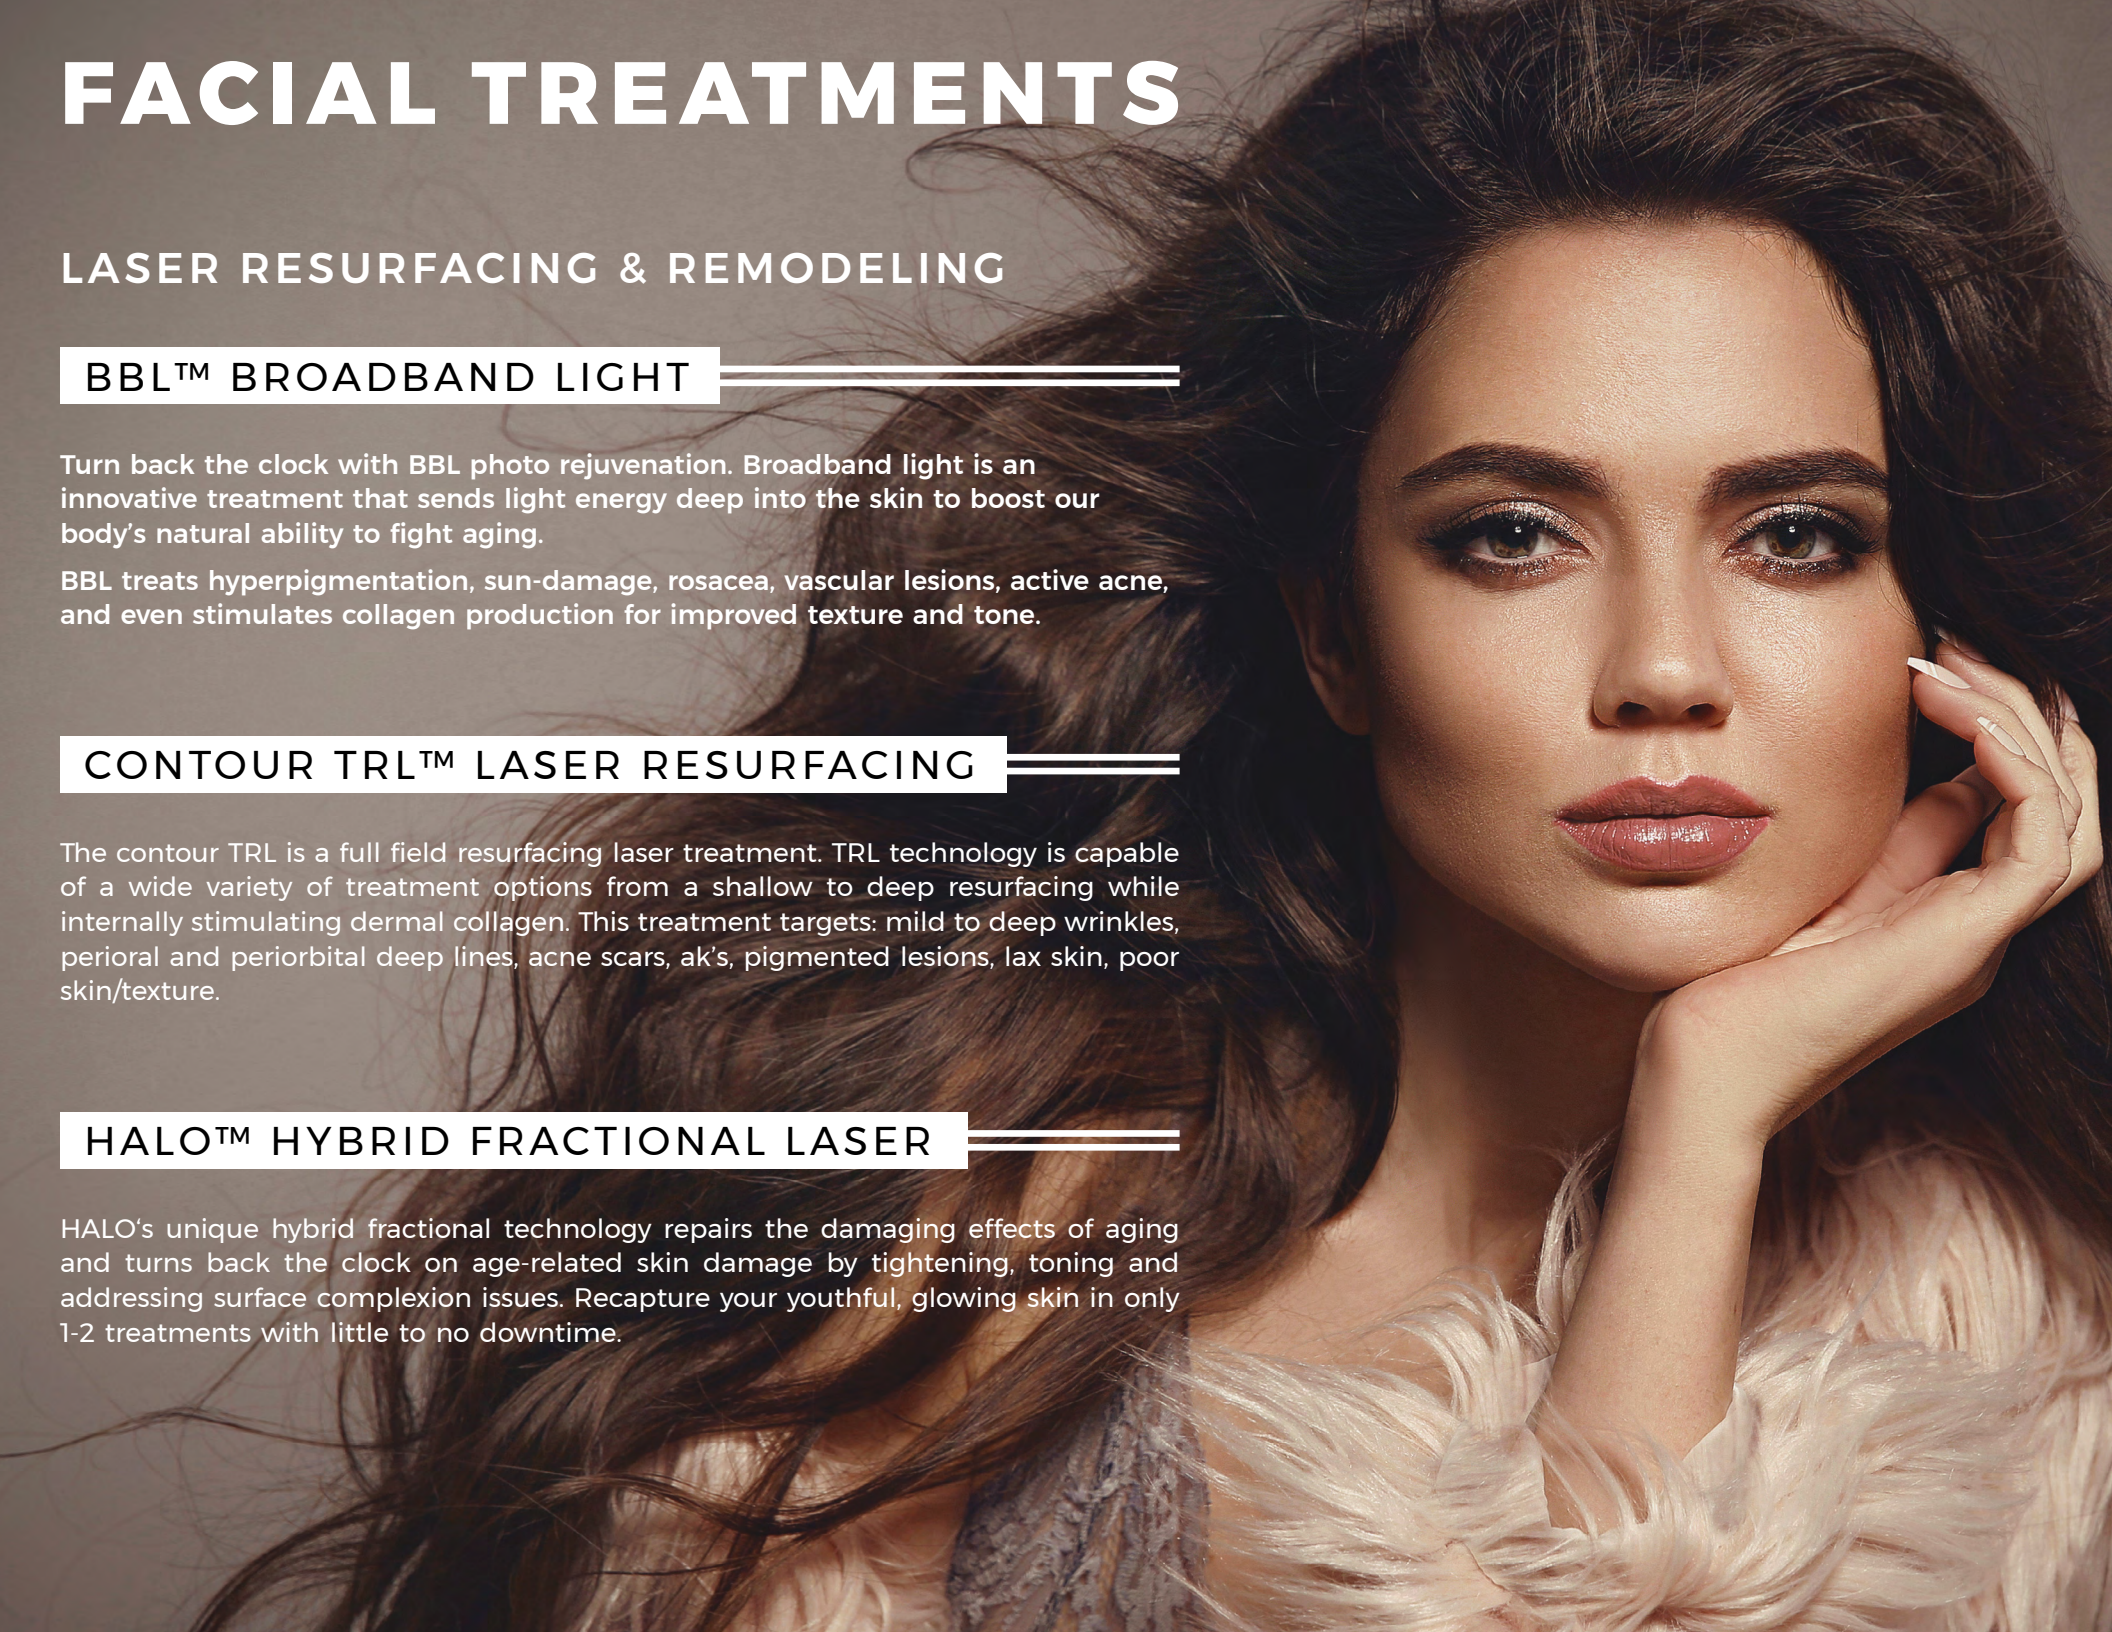

BBL treats hyperpigmentation, sun-damage, rosacea, vascular lesions, active acne, and even stimulates collagen production for improved texture and tone.

CONTOUR TRL™ LASER RESURFACING

The contour TRL is a full field resurfacing laser treatment. TRL technology is capable of a wide variety of treatment options from a shallow to deep resurfacing while internally stimulating dermal collagen. This treatment targets: mild to deep wrinkles, perioral and periorbital deep lines, acne scars, ak's, pigmented lesions, lax skin, poor skin/texture.

HALO™ HYBRID FRACTIONAL LASER

HALO's unique hybrid fractional technology repairs the damaging effects of aging and turns back the clock on age-related skin damage by tightening, toning and addressing surface complexion issues. Recapture your youthful, glowing skin in only 1-2 treatments with little to no downtime.

MORPHEUS8 FRACTIONATED SKIN REMODELING

Patients love Morpheus8 because it is a minimally invasive radiofrequency technology which remodels collagen while coagulating adipose tissue. With only a few treatments, you can experience skin tightening and resurfacing with better results than ever before. Unlike other microneedling devices, Morpheus8 allows body and facial treatments. It's able to provide these incredible results because it is the deepest and most effective radiofrequency microneedling device on the market.

MOXI™ FRACTIONAL LASER

MOXI™ corrects uneven pigmentation and improves skin tone and texture without the recovery or downtime of more aggressive lasers. MOXI™ is great for all skin types any time of year!

OPUS PLASMA SKIN RESURFACING

OPUS is a fractional plasma treatment that produces results that replicate the most aggressive ablative CO2 laser and the gentlest skin peel with minimal downtime. Compared to traditional ablative CO2 skin resurfacing treatments that typically require anesthesia and up to two weeks of recovery, OPUS Plasma treatment requires half the downtime, and the entire procedure can be completed in under 15 minutes for one area.

FACIAL TREATMENTS

ACNE TREATMENT

Acne is a skin condition that affects most adults at some point during their life. However, if you suffer from persistent acne resistant to other treatments or have mild to severe scarring from acne, you might benefit from specialized therapies. Lux Med Spa offers treatments including chemical peels, light treatments, microneedling, and more. At Lux, we provide various skin care treatments to address your skin needs, whether you want to clear your skin, prevent further breakouts, or improve the texture of your skin.

LASH/BROW TINTING

Enhances the eyes by darkening the lashes without damaging your natural lashes.

DIAMONDGLOW DERMALINFUSION

This advanced form of microdermabrasion simultaneously exfoliates while infusing customized serums to revitalize your skin and leave you glowing!

MICRONEEDLING

“SkinPen” is the only FDA approved microneedling device on the market. Microneedling, also referred to as collagen induction therapy, works to lift, tighten, and rejuvenate your skin. It helps in reducing fine lines, acne scars, appearance of pores and stretchmarks. As a result of your treatment, you will achieve softer, younger looking skin with minimal downtime.

THERMISMOOTH

Gentle heating using temperature controlled radiofrequency energy to the forehead, eyes, cheeks, mouth and neck.

4-6 treatments are recommended.

INJECTABLES

BOTOX / DYSPORT / JEUVEAU

Reduces and smooths out lines and wrinkles.

JUVEDERM

The versatile Juvéderm family of dermal fillers addresses a wide range of aesthetic concerns.

- ULTRA XC** – adds volume to lips, softens the appearance of wrinkles
- ULTRA PLUS XC** – adds volume to lips for a more robust look, softens the appearance of wrinkles
- VOLBELLA XC** – adds definition to lips, fills superficial lines
- VOLLURE XC** – adds subtle plump to lips, fills nasolabial folds and marionette lines
- VOLUMA XC** – adds volume to midface, cheeks, and jawline

KYBELLA

Permanently dissolves stubborn, under-the-chin fat and improves contour to area.

RESTITLANE

The Restylane® family of dermal filler provides natural-looking volume & results.

- Contour** – restores cheek volume and definition with a natural look
- Defyne** – corrects moderate to severe facial wrinkles & folds
- Refyne** – corrects mild to moderate facial wrinkles & folds, adds volume to lips
- Kysse** – adds definition and volume to lips
- Lyft** – adds volume to midface, cheeks & hands
- Silk** – designed for lip augmentation and smoothing of wrinkles around the mouth

LIQUID LIFT

Refresh, restore, and add beauty to your face without surgery. A liquid face lift combines injectable fillers, Kybella and Botox to get facelift results but without the scalpel. Together they can reduce wrinkles, restore facial volume, and erase under-the-chin fat. Our master injector will tailor a liquid facelift treatment to match your aesthetic needs and desires.

FULL LIQUID LIFT

50 Units botox (eyes and brow wrinkle reducer)
1 Syringe Juvederm (lips, nasolabial fold filler)
2 Syringes Voluma (cheek, mid-face filler)
1 Vial Kybella (chin/neck sculpting)

MINI LIQUID LIFT

25 Units botox (eyes and brow wrinkle reducer)
1 Syringe Juvederm (lips, nasolabial fold filler)
1 Syringe Voluma (cheek, mid-face filler)
1 Vial Kybella (chin/neck sculpting)

CUSTOM LIQUID LIFT

Our master injectors will help you achieve your aesthetic goals. See the a la carte menu for pricing.

BODY TREATMENTS

EMSCULPT® BODY CONTOURING

Emsculpt is a groundbreaking technology designed to treat abs, buttocks, arms, thighs. Emsculpt is the only procedure to help both women and men build muscle and sculpt their body. In addition, the Emsculpt creates the world's first non-invasive buttock toning procedure. The EMSculpt Body Sculpting Technology delivers High-Intensity Focused Electromagnetic Energy (HIFEM) to induce powerful muscle contractions that are not achievable through voluntary contraction such as traditional exercises like sit-ups and squats.

ACCENT PRIME™ BODY CONTOURING

Accent Prime is a total body contouring, skin renewal system. It's safe for all skin types and can be individualized to treat each patient's problem areas. Its benefits include face and body contouring, fat reduction, skin tightening, cellulite reduction, lymphatic drainage and skin rejuvenation. The Accent Prime uses radiofrequency (or RF), which uses waves with the highest and safest power and ultrasonic impulses. This enables body contouring by using ultrasonic technology to melt fat while utilizing radiofrequency thermal tightening of the skin. The result of this combination makes it possible to sculpt the body in areas that have previously been complicated to treat, for example, around the abdomen, knees, and arms. This dual technology creates an unbeatable combination and results that are safe and effective with zero downtime.

BIO-IDENTICAL HORMONE REPLACEMENT THERAPY

BHRT is administered in pellet form. It is a safe, easy and virtually painless process that is helping people all over the world regain their strength, achieve better focus, enhance sexual function and diminish anxiety while balancing their immune systems and their lives. BHRT increases your energy levels, improves sleep, decreases anxiety and irritability, helps create mental focus & clarity, improves sexual function, decreases excess fat & helps increase muscle mass.

THERMIVA

Temperature controlled radio-frequency treatment for low libido, vaginal dryness, mild to moderate stress incontinence, and sexual dysfunction.

IV THERAPY

Restore your body and your health with the added protection of micronutrients. IV drip therapy delivers vitamins, nutrients, medicine, or other pharmaceuticals directly into the bloodstream. IV infusion therapy bypasses the metabolism process of the digestive system to ensure absorption. The direct delivery of supplements and medication leads to a quicker positive health impact.

Beauty IV drip: Look your best! Designed to improve the condition of the skin, hair, and nails by enhancing the nutrient levels. The treatment includes: **Biotin, Ascorbic Acid, Glutathione, B-complex, and B-12**

Immunity IV drip: Build your defense! Immune health protects your body from colds, flu, and other illnesses. Strengthen your immune system with targeted supplements, including: **Zinc, Ascorbic Acid, and B-12**

LASER HAIR REMOVAL

Laser hair removal is quick, safe and effectively removes hair on all skin types. Ladies, enjoy silky legs and a smooth bikini line. Gentleman, shape up your beards and banish back hair. The solution for smooth skin and permanent hair reduction. **Treatment areas:** lip or chin, jawline & sideburns, back, bikini, brazilian bikini, full legs, half legs, underarms. Individual area package pricing available upon request.

MIRADRY “NO SWEAT”

The only FDA-cleared treatment that can dramatically reduce underarm sweat, odor and hair in as little as one treatment. The Miradry system uses thermal energy that targets and permanently eliminates the sweat and odor glands in your underarm.

MASSAGE

DEEP TISSUE BODY REJUVENATION

Focuses on physical and muscular recuperation. Release of pressure points to regain energy and soothe muscles.

LYMPHATIC DRAINAGE

Gentle pressure on the lymph nodes to promote lymphatic circulation and decongest the tissues.

PRE & POST PARTUM

Helps with hormonal regulation, decreases stress and promotes overall well-being and relaxation.

SPORTS THERAPY

Geared toward athletes focusing on areas of the body that are overused and stressed from repetitive movement.
